## Thos. Rogers & Sons Nurseries

Successors to COOPER & ROGERS

Winfield,

Kansas

I have purchased the interest of Mr. Cooper and have taken my sons in the business with me. We have all followed the business during our careers and know what it takes to produce good, healthy trees that will grow and give satisfaction.

We grow our own trees and do our own grading so we know just the kind of trees that will be used in filling your order. Nothing too good for our customers. Once a customer, always a satisfied customer.

Prices—You will find that we have cut our prices on many items 50 per cent and reduced greatly on all stock. We are in a way farmers and depend upon them for our business. We have been at great cost producing this stock, high wages, rents, packing material, twine and other items have cost us much more this year, but we are able to realize that the prices on farm products have fallen below cost of production and so we put our prices on so that your dollars will go as far as we can possibly make it.

Express and Freight—We will pay express or freight on all orders amounting to over \$25.00. On smaller orders we pack and deliver free at our station. Most orders should go by express. Our trees are too large to be sent by Parcel Post.

Remittance—Should be sent by postal or express money order, bank draft, or we will take your personal check if you prefer.

Do not send currency as it is unsafe.

Club Orders—If a number of neighbors order together, we will tie each order separate, with the purchaser's name attached, and then pack all in one bale or box. We will pay transportation charges on such orders if the amount is over \$25.00 Persons sending in club orders will be given credit for 10 per cent in trees, or any stock they wish for their trouble. If you get up the club be sure to mention your name.

Claims—All claims for errors, shortages, or anything else pertaining to your shipment should be made promptly after receipt of goods.

In writing about your order always give number and all information pertaining to it. Mistakes will occur so in case of any error on our part notify us and we stand ready to make it right and give complete satisfaction in the matter.

Shipping F cilities—We have Sante Fe, Mo. Pacific, Frisco, Southern Kansas and express companies.

Our Blackberries are all root cutting plants. This is the only kind that should be planted. Many use suckers but we do got recommend them. They are cheaper to grow but we want our stock to deliver the goods and we only sell what we know will give complete satisfaction to our customers.

We recommend Early Harvest for early berries and Mersereau for late. We have run experimental blocks on many varieties and have found these two to be the best. We want everyone who likes berries to have a patch of at least 1000 plants. Very scarce. Orders accepted subject to being sold out when received.

Note—Strawberry plants are packed 25 in a bunch. We do not sell less than 25 of each variety. We do not dig our plants until ready to ship. This insures you fresh plants that are not dried out before shipment. We grow our own plants and they are the best that can be produced anywhere We recommend the Senator Dunlap above all others.
